

## Level 3 Electrician

We are an innovative company based in Rochester, Kent. We have developed the world's first self-service currency exchange kiosk which will dominate the way money exchange is transacted. This company is very exciting, young, innovative and expansive and will provide an exciting opportunity for you to be one of our team.

Duties include, but are not limited to, the below tasks. You may from time to time be asked to fulfil other duties in line with your job.

- Successful candidates must hold either an ECS or a JIB Gold Card
- A City & Guilds 2360 level 1/2 and NVQ Level 3 qualification
- A BS 7671 17th Edition qualification
- Installation and assembly, testing and commissioning of factory kiosks.
- Electrical installation work.
- Maintenance of field kiosks.
- Assist field maintenance teams.
- PAT testing.
- Assist with the delivery or pickup of procured supplies from various manufacturers.
- Required to read electrical schematics and apply small innovations to existing projects.

### Specific Technical Duties include:

- Analysis and investigation of electrical problems.
- Repair, substitution or replacement of faulty hardware as necessary.
- Repair, installation, reinstallation or reprogram of software as necessary.
- Testing and error checking of IT equipment and networks.
- Backup of data as necessary in order to restore functionality.
- Provide recommendations as necessary for the general health of the equipment.
- Provide technical documentation and/or materials upon request or as necessary.

### Non Specific Technical Duties include:

- May include running network cabling. Also may require working with onsite technicians in order to facilitate networking solutions.
- May include installing physical equipment (i.e. networking patch panels, or racks or rack enclosures or hub stations) on, under or above workstations, server rooms and/or specifically designed equipment.

### Specific Non-Technical Duties include:

- Transportation of equipment (including pickup and drop off to 3rd parties if necessary).
- Must be able to carry and lift, including but not limited to toolboxes, ladders, packaged computers and equipment such as monitors, display panels or small TV's, laptops, servers or UPS units but no more than 70lbs per individual.

### Resources:

- Self-motivated and innovative.
- Must be presentable.
- Must have good English communication skills in both written and verbal forms.
- Must be willing to work non-standard business hours including in some cases late evenings and/or weekend and/or holidays.
- Must wear steel toe (CSA approved) footwear and conform to uniform standards at all times.
- Must have a current passport and a full, clean UK driving licence.
